ORACLE

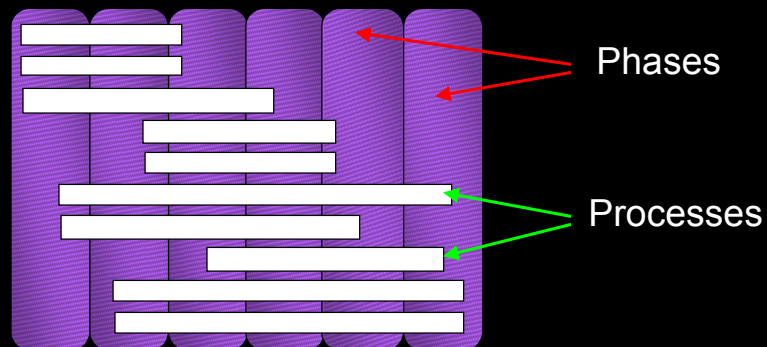

Oracle Method

New Developments & Testing

ORACLE

Waterfall method

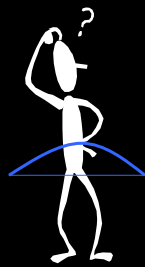

- In the 'old' days we had CDM Classic

ORACLE

The problem with Classic

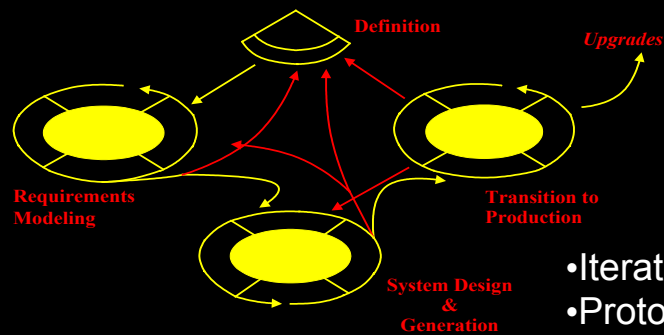

- Linear
- Not very flexible

ORACLE

DSDM

- Then we got FastTrack

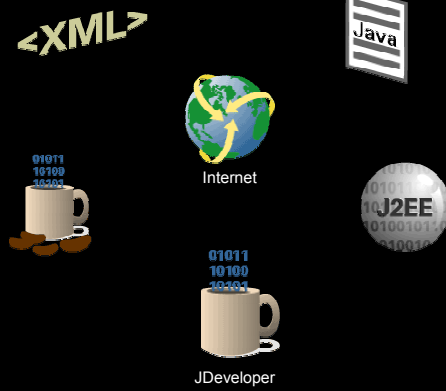

- Iterations
- Prototyping
- Managed flexibility

ORACLE

J2EE

- Then the world changed

ORACLE

“Chaos”

ORACLE

JCDM

- J2EE CDM
 - Based on
 - Unified Process (OO with UML + processes)
 - Oracle Method (+ tasks + deliverables + templates + estimating)
 - Includes use of Oracle Tools & Services, like:
 - Oracle 9iAS
 - JDeveloper
 - Designer
 - SCM
 - JHeadstart

ORACLE

Testing the Classic way

- Unit Test
- System Test
- (System) Integration Test
- **Acceptance Test**

ORACLE

Testing the FastTrack way

- **Prototyping & iterations** +
- Unit Test
- System Test
- (System) Integration Test
- Acceptance Test

ORACLE

Testing the JCDM way

- Small & frequent releases +
- **Unit Test & Continuous Integration**
- System Test
- (System) Integration Test
- Acceptance Test

ORACLE
